

# BRIAN KIMUTAI KOCHILINYANG

Cybersecurity & Digital Forensics Professional

Nairobi, Kenya | +254 722475396 | kimutaibrian.kb@gmail.com | LinkedIn

## PROFESSIONAL SUMMARY

Cybersecurity and Digital Forensics professional pursuing a Bachelor of Science in Cybersecurity, with hands-on experience in IT support, security operations, network administration, and digital forensics. Skilled in Windows and Linux administration, endpoint security, vulnerability assessment, incident response, and network troubleshooting through roles at Kenya Revenue Authority (KRA) and Lendplus Credit Limited. Proficient in security analysis using Wireshark, Kali Linux, Autopsy, Nmap, OpenVAS, and Cisco Packet Tracer, with SIEM operations experience in Splunk and working knowledge of threat detection, malware analysis, and AI security. Holds industry certifications including Cisco CyberOps Associate, CCNA, Certified LLM Security Expert (CLLMSE), Cybersecurity Defense Analyst Career Path, Digital Forensics & Incident Investigation, Malware Analysis, Ethical Hacking, and Endpoint Security. Passionate about protecting enterprise systems, investigating cyber threats, and building secure, resilient IT environments.

## CORE COMPETENCIES

- Security Operations (SOC):** Threat detection, security monitoring, log analysis, incident response, SIEM operations, vulnerability management
- Digital Forensics & Incident Response:** Evidence collection and preservation, forensic analysis, chain of custody, malware investigation, forensic reporting
- Network & Infrastructure Security:** TCP/IP, routing and switching, firewalls, IDS/IPS, VPNs, endpoint security, patch management
- Offensive Security:** Vulnerability assessment, penetration testing fundamentals, reconnaissance, web application security, ethical hacking
- Systems & IT Support:** Windows and Linux administration, hardware/software troubleshooting, system configuration, user account management
- Programming & Scripting:** Python, JavaScript, C, C++, Bash
- Tools & Technologies:** Splunk, Wireshark, Kali Linux, Nmap, OpenVAS, Autopsy, Cisco Packet Tracer, Git, GitHub
- AI & Emerging Security:** AI security fundamentals, LLM security, AI-assisted threat analysis, prompt injection awareness, secure AI systems
- Professional Skills:** Analytical thinking, problem-solving, technical documentation, teamwork, communication, adaptability, attention to detail

## PROFESSIONAL EXPERIENCE

ICT Attaché | Kenya Revenue Authority (KRA), Eldoret Station

Jan 2026 – Mar 2026

- Installed, configured, and maintained Windows desktop and laptop systems to ensure reliable end-user access.
- Performed Windows and Linux operating system installation, configuration, updates, and routine maintenance.
- Diagnosed and resolved hardware, software, printer, and network connectivity issues, minimizing downtime.
- Assisted in configuring and troubleshooting LAN connectivity and TCP/IP-related issues.
- Managed user accounts and access permissions in accordance with organizational IT security policies.
- Provided first-line technical support by logging, troubleshooting, and resolving user incidents.

- Assisted with software deployment, system upgrades, data backup, and preventive maintenance.
- Applied cybersecurity best practices, including endpoint protection, secure user access, and system hardening.
- Documented technical issues, maintenance activities, and support procedures to improve IT service delivery.

#### IT Support Technician (Security Focus) | Lendplus Credit Limited

Sep 2024 – Sep 2025

- Provided technical support for Windows systems, resolving hardware, software, and network-related issues.
- Assisted with security monitoring and supported incident response activities.
- Collected, preserved, and analyzed digital evidence while maintaining chain of custody during forensic investigations.
- Conducted vulnerability assessments and recommended remediation measures to reduce security risks.
- Configured and secured user accounts, endpoints, and network devices following security best practices.
- Performed patch management, system updates, antivirus administration, and routine backup procedures.
- Supported implementation and enforcement of information security policies, access controls, and compliance requirements.
- Used Wireshark, Kali Linux, Nmap, OpenVAS, and Autopsy for network analysis, vulnerability assessment, and digital forensics.
- Delivered cybersecurity awareness training and technical guidance to end users.
- Prepared technical documentation, security incident reports, and recovery procedures while researching emerging cybersecurity threats.

## EDUCATION

---

#### Bachelor of Science in Cybersecurity & Forensics | Zetech University

Ongoing

#### Diploma in Cybersecurity & Forensics | Zetech University

2024 – 2025

## CERTIFICATIONS

---

- **Cybersecurity Defense Analyst Career Path** — Cisco Networking Academy & Splunk (Aug 2026)
- **Certified LLM Security Expert (CLLMSE)** — Red Team Leaders (2026)
- **Cisco Certified Network Associate (CCNA)** — Cisco Networking Academy (2026)
- **Cisco CyberOps Associate** — Cisco Networking Academy (Apr 2026)
- **Digital Forensics & Incident Investigation** — Red Teamers (Apr 2026)
- **Malware Analysis** — Red Teamers (Jan 2026)
- **Cyber Threat Management** — Cisco Networking Academy (2026)
- **Network Defense** — Cisco Networking Academy (2026)
- **Ethical Hacking** — Cyber Shujaa (Aug 2025)
- **Endpoint Security** — Cisco Networking Academy (Jun 2025)

## AWARDS & RECOGNITION

---

- **Learn-A-Thon 2025 — Learner Achievement Award** — Cisco Networking Academy (Dec 2025)

## REFEREES

---

Available upon request.
